Happy July Durbin Crossing! If there is one thing that can be said for Florida, it’s that we have WEATHER. Lots of it and with a capital ‘W’, and when it comes to the health of our lakes, this is often a case of mixed blessings. Precipitation plays a multi-role part in the maintenance of our ponds and can have both positive and negative effects on a pond’s state. Low water levels in a pond can lead to unsightly exposed bank along the perimeter- a situation that was pervasive during last year’s drought. This can lead to erosion along the shoreline if water levels remain low for an extended period of time. As pond levels drop, this can also concentrate pollutants and raise water temperatures in the ponds, leading to any number of pond crises. Fortunately, it appears that Northeast Florida has returned to our regular programming of afternoon thunderstorms and somewhat steady rainfall. This rainfall can actually help lower the temperature of the ponds... unless they receive large amounts of storm water from the streets, otherwise the water is heated up as it flows over the pavement and can then raise pond temperatures and spur algae growth in the ponds.

Occasionally we see fish kills in ponds after rainfall. While the cause can be difficult to determine, there are some things we can usually rule-out. Florida water tends to be very hard, with a high mineral content due to the limestone bedrock that makes up most of the state. While awful for your hair and skin, this hard water is very good at buffering acidic rain- so fish kills we see are usually not a product of this occurrence. Occasionally we see high turbidity causing fish kills when particles of sand and silt washed in during a rain event, clog the gills of fish and cause suffocation- but this usually only occurs on ponds where construction is being done nearby. In ponds with pre-existing oxygen problems, too much water at once can cause the pond to mix and may also lead to fish kills when anoxic water from the bottom is pushed up towards the surface. Occasionally oils, pesticides, and other substances are washed into ponds that contain chemicals that are toxic to juvenile fish- for this reason it is always best to follow label rates on containers, properly dispose of chemicals, and avoid treating lawns if rain is expected in the near future. As always, it is best to be on the lookout and let your management company know if you notice anything abnormal in your pond, rain or shine; showell@vestapropertyservices.com, 904-230-2011.

A note from your HOA:

Where can I find my HOA documents?

This is a common question when a homeowner wants to familiarize themselves with the community covenants and restrictions, review architectural control guidelines, or look over Board of Directors minutes from past meetings. The answer is as easy as a simple click of the HOA tab on the Durbin Crossing Living community website at http://durbincrossingliving.com. That simple click of the HOA tab will take you to a public venue where the majority of documents related to HOA business affairs can be found.

The HOA site also offers a password protected venue that is specific to individual homeowners and associated account information. If you don’t have a password, just click the “Request Login” link, complete the application and after the verification of association membership, you will receive a login and password. If you have any problems getting a login or you can’t locate the documents you’re looking for, please feel free to contact your HOA Property Management team, (FPM) Floridian Property Management (FPM) at (904) 592-4090.

July 3 World Golf Village Fireworks
World Golf Hall of Fame will put on its annual spectacular fireworks display (one of the largest in North Florida) to celebrate Independence Day on Tuesday, July 3, 2018. There will also be a special movie package available for purchase for a showing of *Jurassic World: Fallen Kingdom* in IMAX 3D.

The fireworks will begin at approximately 9:15 p.m. Admission to view the fireworks show is free.

July 4 Fireworks over the Matanzas
Wednesday, July 4, 2018, 6 - 10 p.m. at Plaza de la Constitucion
*View the colorful and exciting Fireworks Over the Matanzas on July 4th in St. Augustine. A free two-hour concert will precede the fireworks show. St. Augustine's 4th of July celebration at the Castillo de San Marcos includes a live music concert and a spectacular fireworks display over the historic bayfront. "Fireworks Over the Matanzas" is one of the biggest and best fireworks displays on the East Coast, featuring 5,000 individual shells exploding as high as 2,000 feet and as low as 100 feet.*

Starting at 6:00 p.m., the popular local band The All-Star Orchestra performs a two-hour show of big band and swing music along with patriotic favorites. The concert is free and open to the public, and everyone is encouraged to bring lounge chairs for seating.

The fireworks begin at 9:30 p.m.

I scream, you scream, we ALL scream for ICE CREAM!

We are proud to announce that Doodleplop’s Ice Cream Truck will be at the South Amenity Center on **Saturday July 7th** and **Tuesday July 17th** from 12-2pm. They have everything from the classics to cotton candy and affordable too!
Ingredients:

- 1 (6 ounce) package cherry flavored Jell-O(R) mix
- 2 (.25 ounce) envelopes unflavored gelatin
- 2 cups boiling water
- 4 (.25 ounce) envelopes unflavored gelatin
- 1 cup boiling water
- 1 (14 ounce) can sweetened condensed milk
- 1 (6 ounce) package blue raspberry flavored Jell-O(R) mix
- 2 (.25 ounce) envelopes unflavored gelatin
- 2 cups boiling water

Directions:

1. Place cherry gelatin mix into a heatproof bowl, stir in 1 packet of unflavored gelatin, and mix with 2 cups of boiling water, stirring until the gelatin has dissolved and the mixture is clear, about 2 minutes. Pour into the bottom of a 9x13 rectangular glass baking dish. Place in refrigerator until completely cold and set, about 1 hour.

2. Sprinkle 4 packets of unflavored gelatin onto 1 cup of boiling water in a heatproof bowl, allow to stand for about 3 minutes, and stir until dissolved; mix in the sweetened condensed milk. Allow to cool but not thicken, about 10 minutes; gently pour into a layer on top of the cherry layer. Return to refrigerator and allow to chill completely, about 1 more hour.

3. Place blue raspberry gelatin mix and 1 packet of unflavored gelatin into a heatproof bowl, and mix with 2 cups of boiling water, stirring until the blue gelatin is clear, about 2 minutes. Allow to stand and cool but not thicken, about 10 minutes; gently pour onto the white layer. Chill in refrigerator until the dessert is firm and cold, about 1 hr. To serve, cut into squares. ENJOY!
ALLIGATOR SAFETY & INFORMATION:
During spring when temperatures rise, alligators become more active. Although alligator incidents are rare, the Florida Fish and Wildlife Conservation Commission (FWC) recommends taking precautions when having fun in and around the water. Alligators inhabit all 67 counties in Florida and can be found anywhere there is standing water. Reduce the chances of conflicts with alligators by swimming only in designated swimming areas. Also keep pets on a leash and away from the water.
Because alligators control their body temperature by basking in the sun, they may be easily observed. However, the FWC urges people to keep their distance if they see one. Also, NEVER feed alligators as it is dangerous and illegal.
The FWC places the highest priority on public safety and administers a Statewide Nuisance Alligator Program to address complaints concerning specific alligators. People with concerns about an alligator should call the FWC’s toll-free Nuisance Alligator Hotline at 866-FWC-GATOR (392-4286). SNAP uses contracted nuisance alligator trappers throughout the state to remove alligators 4 feet in length or greater that are believed to pose a threat to people, pets or property. The FWC also works diligently to keep Floridians and visitors informed, including providing advice about Living with Alligators. Please note, there isn’t an alligator relocation program, the gators will be put down.
Learn more about alligators at: MyFWC.com/Alligator. STAY INFORMED AND SAFE!

NORTH FACILITY STAFFING:
We are excited to announce that you will be greeted and welcomed much more often this summer at our North facility. We will be on hand to check you in, register your guests, answer your questions and more. Stop by and say hello, we are looking forward to seeing you.
Also, please note that the North facility and ALL amenities are under 24 hour video surveillance. This is not only for your safety but also to help keep an eye on our amenities and keep costs down.

DURBIN CROSSING LITTER:
This is our last favor to ask and then we will return to our events and recreation portion of the newsletter. However, this is an important matter that we need your help with also.
Litter doesn’t just look bad, it is also damaging to our sewers, lakes and a danger to wildlife. Please help care for our community by disposing of trash properly. We TRULY appreciate your cooperation!

EXCITING NEWS... Swim lessons are underway! We are offering lessons for our lil’ residents ages 3 and older. Whether you would like to get more comfortable in the water, have peace of mind of being “water safe” or learn a stroke. We will have the perfect class for you.

Day and evening classes are available and filling up fast, don’t delay sign up for your spot TODAY! All information is posted on our website: durbincrossingliving.com, just click to print or stop by the South office for a form and to pre-pay and register. Any questions, just call us at 904-230-2011 or email Amenity Manager, Bernadette, at bduncan@vestapropertyservices.com. Just keep SWIMMING!
It's hard to believe that the summer swim team season is almost over! With 175 swimmers, your neighborhood team swam their hearts out against neighboring communities all summer. Nearly half of our swimmers consistently improved their times week after week!

The season concludes on July 14th with our Championship meet where the Dolphins will compete against the six other teams in the league at the Cecil Field Aquatic Complex.

Our swimmers have spent the summer building skills, working hard and making friends while battling the Fighting Turtles, Porpoises, Hurricanes, Hammerheads, Barracudas and the Blue Tide for heat ribbons!

Please join us in congratulating them on a job well done!

GO DOLPHINS!

PS: Want to sign your children up for this awesome team? Keep your eye on the February newsletter for registration information for the 2019 season!
Attention ALL Durbin Residents,

Please note, that your Durbin Crossing Amenity Center staff are very excited and proud to serve you. We work hard to make sure your amenities are clean, warm, welcoming and ready for use, when you are ready! Whether you are able to come to the amenities daily, monthly or just when all of the planets align, we want to make it great. To see residents enjoying the amenities, the Norman Rockwell atmosphere we strive to provide and making memories right here, is priceless to us. However, we need a bit of help to keep the dream alive, please.

We would like to remind you of a few VERY important Amenity policies and procedures:

- Your DC access card is mandatory to enter the pools, gym, tennis courts, all amenities. If you have lost your card - replacement cards may be purchased for $25, cash or check only please. It just takes a couple of minutes to get a replacement card, at the South Amenity Center.

- If you are a new resident who has not yet obtained your cards, please call the South Amenity Center office (closed Mondays) for full details on what is required, 904-230-2011. We look forward to meeting you.

- The age to enter either pool facility, North or South, without an adult is 15 years of age, no exceptions. Please note, that ages will be checked at the front gates. Failure to adhere to this policy or falsifying information can result in the loss of Amenity privileges.

- The age to enter the gym without an adult is 16 years of age. Again, ages checked upon entry.

- The age to enter the gym with an adult, 18 years or older, is 12 years of age.

- Please note, that there is a $10 fee per guest to use the gym and there is a two guest maximum.

- **You are allowed to bring up to five guests per visit to either pool facility. Please sign your guest(s) in upon entry.** Guests are tracked from Spring Break to Labor Day weekend and you are allowed 24 complimentary guests during that time frame. Also, you must remain with your guest(s) for the duration of their visit.

We would like to thank you in advance for your cooperation. We are a growing community and would like to maintain that small town, family friendly atmosphere we have all grown accustomed to. We look forward to seeing you on your next visit.

Florida is the lightning capital of the United States and it is ranked as the number one state for deaths due to lightning.

- Did you know that lightning kills more people in the U.S. than hurricanes and tornadoes combined?
- Lightning travels at the speed of light, while thunder travels at the speed of sound.
- A single bolt of lightning can discharge about 100 million bolts of electricity and can travel as far as 10 miles from a cloud. It does not need to be dark directly overhead.
  - If you can hear thunder, you are within striking distance!
- It has been known to travel through clear air and strike 10 miles from the storm like a bolt out of the blue!
- Lightning is actually 5 times hotter than the sun’s surface!

With all of this knowledge and critical information we’d like to remind you of Durbin Crossing’s thunderstorm policy. If we hear thunder or see lightning, we will clear, close and secure the facility for 30 minutes. Every time thunder is heard or lightning is seen, the clock is restarted to 30 minutes. This is strictly enforced for your safety!

No life is worth the risk!

*Stay tuned to our Twitter feed for up to the minute pool closures and information; @dcamenities

WE APPRECIATE YOUR UNDERSTANDING & COOPERATION!

Pool Apparel
Proper swimming apparel is necessary to ensure a pleasant swimming experience for ALL! When deciding what swimsuit to wear to either Durbin pool, please consider that this is a family, community pool. Should the swimsuit you choose NOT cover all the appropriate parts you may be asked to leave the facility. So, please leave that new, adorable, slightly risqué suit for the beach. Thank you for understanding.

Age Restrictions
Children, 14 years of age and younger, must be accompanied by an adult at least 18 years of age. For your safety; the children’s pool and water play features are limited to children 13 years and under.

Guest Passes
Each household will receive 24 free guest passes from Spring Break-Labor Day. After the 24 guest passes have been used the cost per guest is $5.00 per visit. Please remember that there is a 5 guest limit per household, per visit to either pool. Also, you are to required to remain with your guest(s) at all times during their visit and are responsible for their actions. Guest(s) will be registered upon entry.

Toys
The following items are generally allowed: noodles, kick boards, water wings, soft foam balls and dive sticks. The only inflatable items allowed are those for infant floatation, with foot holes. Also, please note that any regulation sporting equipment, i.e. footballs, soccer balls, etc. are not made for water play and will not be allowed for the safety of others. We appreciate your cooperation.

General Rules
- Swim diapers are required for any child who is not properly toilet trained.
- Please keep children off of the lane ropes and out of the lap lanes unless lap swimming. This is for the safety of all pool patrons.
- No floatation devices, water wings or goggles are allowed on the giant slide.
- No alcoholic beverages are allowed on any Amenity Center property.

Operating Swim Hours
Please stay tuned to your sunrise/sunset calendars for full details. Also, sign up to our Twitter account @dcamenities for the latest pool information including closings due to weather conditions, etc. The South pool will now be open weekdays until 9pm, Friday and Saturdays until 10pm. We do offer early morning lap swimming, at South, for adults 18 years or older at 5am until the pool opens. Please notify facility attendant that you plan to early swim. Thank you!

** South pool closed Mondays, North pool closed Tuesdays!

**PLEASE NOTE: the North pool is under 24 hour video surveillance and will be staffed weekends, this summer, for your safety. We need to share and be courteous of others, thank you!

How Much Risk Can You Take?

How much risk are you comfortable taking?
Some people seem to be born risk-takers, whereas others are cautious by nature, but an investor’s true psychological risk tolerance can be difficult to assess. Some people who describe their personality a certain way on a questionnaire may act differently when they are tested by real events.

Moreover, an investor’s attitude toward risk can change over time, with experience and age. New investors may be more fearful of potential losses. Investors who have experienced the cyclical and ever-changing nature of the economy and investment performance may be more comfortable with short-term market swings.

Brace yourself.
Market declines are an inevitable part of investing, but abandoning a sound investment strategy in the heat of the moment could be detrimental to your portfolio’s long-term performance. One thing you can do to strengthen your mindset is to anticipate scenarios in which the value of your investments were to fall by 20% to 40%. If you become overly anxious about the possibility of such a loss, it might be helpful to reduce the level of risk in your portfolio. Otherwise, having a plan in place could help you manage your emotions when turbulent times arrive.

All investing involves risk, including the possible loss of principal, and there is no guarantee that any investment strategy will be successful.

How much risk can you afford?
Your capacity for risk generally depends on your current financial position (income, assets, and expenses) as well as your age, health, future earning potential, and time horizon. Your time horizon is the length of time before you expect to tap your investment assets for specific financial goals. The more time you have to keep the money invested, the more likely it is that you can ride out the volatility associated with riskier investments. An aggressive risk profile may be appropriate if you’re investing for a retirement that is many years away. However, investing for a teenager’s upcoming college education may call for a conservative approach.

How much risk may be needed to meet your goals?
If you know how much money you have to invest and can estimate how much you will need in the future, then it’s possible to calculate a “required return” (and a corresponding level of risk) for your investments. Older retirees who have sufficient income and assets to cover expenses for the rest of their lives may not need to expose their savings to risk. On the other hand, some risk-averse individuals may need to invest more aggressively to accumulate enough money for retirement and offset another risk: that inflation could erode the purchasing power of their assets over the long term.
